

# HUSSMANN®

RLN, RMN

## IMPACT

*Narrow Reach-Ins for Frozen Food, Ice Cream and  
Medium Temp Products*

# Narrow Reach-Ins With Innovator Doors

RLN - Narrow Reach-In, Low Temp

RMN - Narrow Reach-In, Medium Temp

Available in 2, 3, 4, and 5 door models

## Saves Floor Space

The RLN and RMN are 4" narrower, bumper to back, than our standard RL reach-in, saving you a full 4" of floor space down each of your reach-in line-ups.

## Same Product Capacity

The product capacity per door in the RLN is actually the same as the capacity of the standard depth RL, even though the RLN is built on a narrower platform. Maximum shelf depth of 22" is the same in both cases.

## Innovator Doors

The RLN and RMN are available with Husmann's industry leading Innovator or Innovator II doors, providing greater energy efficiency, better lighting and simplified maintenance.

## Superior Energy Efficiency

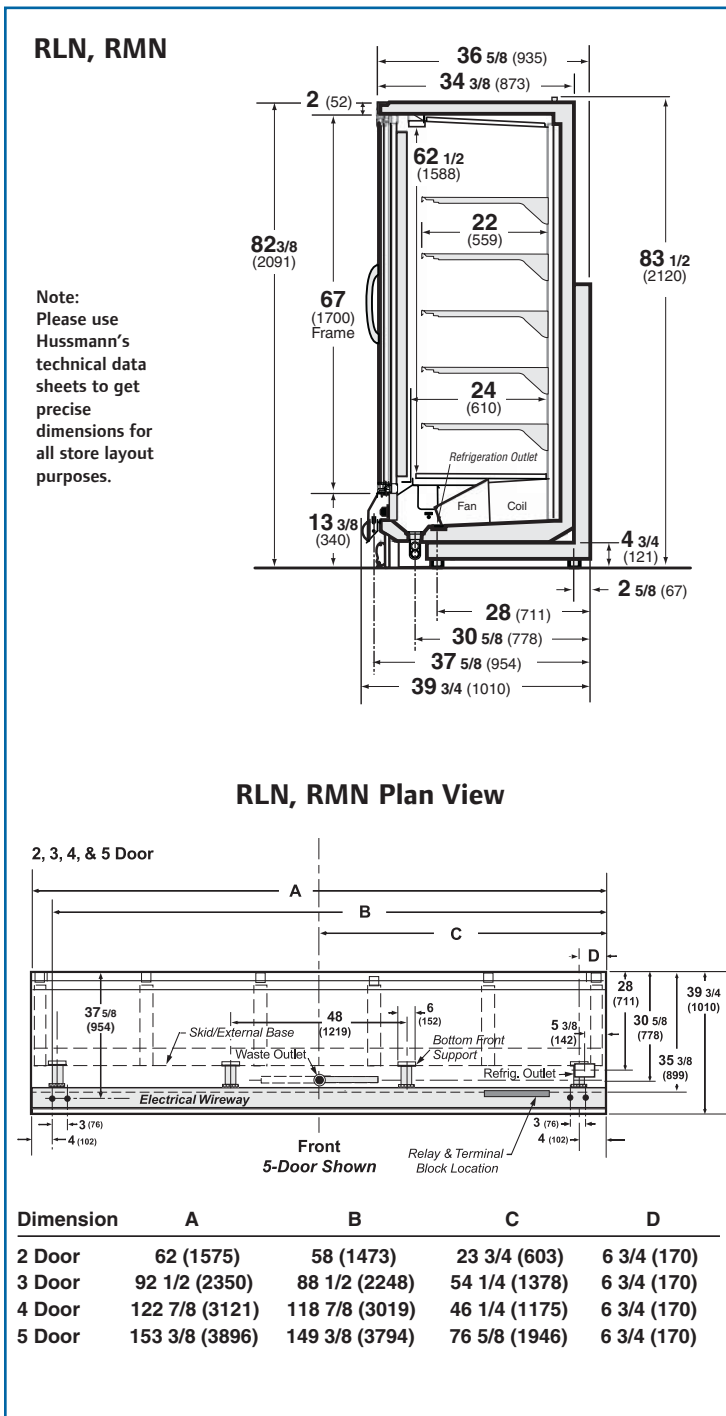

Husmann reach-ins with Innovator or Innovator II doors are significantly more energy efficient than previous models. This reduction is achieved with new, non-conductive materials and a reduction in anti-sweat heat.

## Options:

- Always\*Clear can be applied to Innovator or Innovator II doors. It prevents doors from fogging.
- Always\*Bright LED lights.

NOTE: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75° F and 55% R.H.

NOTE: (We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped.)
